Access to the Unikum learning portal coming soon

InFomentor (which is used in the primary schools) will be discontinued on 23 June. And then from autumn 2022, children in preschools, primary schools and in a gymnasium school (only those under 18) will have access to the Unikum learning portal.

The learning portal is common to all school levels and provides you with the possibility to have greater knowledge of your child's learning and to become more involved.

The Edlevo App, which supplements and complements Unikum. You can use this App to report absences from school and manage your child's schedule in preschool and after-school organised activities. If you have children (under 18) in a gymnasium school, you will also have access to your child's study plan and grades in the App.

Getting started with Unikum

Unikum can be used either via an App or via an ordinary web browser on a computer, tablet or mobile phone. However it is recommended that you use the App, called "Unikum Familj," if possible.

Download the Unikum Familj App (from the App Store (iPhone) or Google Play (Android phones)). Unikum Familj is available in both English and Swedish.

Logging in to the Unikum Familj App

Logging in and identify yourself by clicking on Bank ID (eID).

Logging in to Unikum via a web browser

If you choose not to use the App version, log in to Unikum via:

skelleftea.se/skolportalen

- Select "Log in to Unikum"
- Select "Other ways to log in"
- Search for and click on "Skellefteå Municipality for Parents."
(The next time you log in you will see Skellefteå Municipality directly in the list.)

To: Parents/guardians

To log in to Unikum you need to have a Bank ID (e-ID). If you do not have a Bank ID, please contact Skellefteå Municipality's Resident Services on 0910-73 5000.

If you do not have a Swedish national civic registration number (*personnummer*), you can log in to Unikum by text message, then choose the option "Log in by text message."

If you encounter any problems logging in via SMS, please contact Skellefteå Municipality's Resident Services on 0910-73 50 00.

Verify that your contact details in Unikum are correct

Check that your e-mail address and your home telephone and mobile numbers in Unikum are correct. It is important that you have an e-mail address registered so that you receive the information that is sent out.

If information is missing from your contact details (or if they are incorrect), you will need to update them via either Skellefteå Municipality's e-service [Provide contact details](#) or in the Edlevo App. The information will be transferred to Unikum during the nighttime. If your name or address stated is not correct, contact the Swedish Tax Agency to make a correction.

Edlevo

Unikum is a supplement and complement to Edlevo, where you manage your child's schedule and report any absences in preschool and for other kids in after-school activities. Those who have a child under 18 in a gymnasium school, will also have access in Edlevo to their child's study plan and grades received. Download the Edlevo App from the App Store (iPhone) or Google Play (Android phones).

With **preschools**, this is what is managed in Edlevo and Unikum Familj.

Function	Edlevo	Unikum Familj
Receive messages and information from the preschool		✓
Register/change your child's schedule	✓	
Report absences	✓	
Receive information about the preschool's planning		✓
Receive documentation from the preschool		✓
